

My Birthday Party

3A Leung Pak Kew, Burton

Last week was my birthday. I was very happy because it was my eighth birthday. My friends, Peter and Mary, celebrated it at my house.

My friends were hungry and thirsty, so we ate hot dogs, pizza and many candies. We also drank tasty orange juice. Then, they sang the birthday song to me. I blew out the candles on my big and yummy birthday cake. Next, we ate the birthday cake. After that, my friends played many games with me.

Finally, I opened all my presents and thanked them for coming. I got many presents from them too.

I loved my birthday party very much.

A Long Holiday

3A Liew Jia Ying, Queenie

My favourite holiday is the Chinese New Year holiday. This Chinese New Year, I went to Malaysia with my family. We visited our relatives and friends there.

In Malaysia, we did many fun activities. We went to the Fun Park. We played many games there. We tried many types of delicious foods like kaya bread and layer cakes. We also watched the lion and dragon dance performance. We had a lovely time.

But, when we planned to leave Malaysia, the HKSAR Government officially announced the suspension of schools. Then, I had to stay longer in Malaysia with my sister. We did our online homework and attended online classes, too.

It was a very long holiday. We enjoyed it very much!
