

## Making Slime

3E Poon Ka Yi, Miriam

Slime is the best toy.

Last Sunday, I searched “How to make slime” on Google and found that it was really easy to make. So, I decided to make some with my friend.

After I arrived at my friend's house, we took out a bottle of borax and some glue. First, we carefully squirted out some borax into a bowl. Then, we added some glue into the bowl and mixed them together. After that, we stirred and stirred. A few minutes later, the slimy and sticky slime was ready! We squeezed it, squished it, stretched it ... It was so much fun!

We enjoyed our slime time very much.

## My Favourite Toy

3E Wong Sze Ching, Cecilia

My favourite toy is a duck. My mum bought it for me from a toy shop last Christmas. It has yellow skin. It has a short beak too. Also, it has a round body. It is so lovely and fluffy.

I like it so much. I always play with it.
