

## A Genie from the Wardrobe

5B Wong Chung Shun, Joseph

One day, Eric and Alan lost their way in a forest. They were very frightened. Alan's teeth began to chatter. After walking for some time, they saw a castle, so they went inside.

They opened the door of a room after they got into the castle. There was nobody inside. The only thing they saw was an old wooden wardrobe. After a few seconds, Alan began to shiver and shake. The wind grumbled and rumbled around the chimney. Eric thought the wardrobe was very interesting, so he decided to open the old wooden wardrobe. Suddenly, a genie flew out. 'Look! It is a genie!' Alan screamed.

Luckily, the genie did not hurt them but it made friends with them. From that day on, the genie did not scare anyone again. It became very kind and nice.

## A Genie from the Wardrobe

One day, Eric and Alan lost their way in a forest. It was because they went on a picnic on a dark night. There was a big ancient castle in front of them. Then, Alan suggested, 'Let's go into it and see what's inside.'

While they were walking in the castle, the castle rocked. They were so scared. They crept into a bedroom. The bedroom was so quiet. There was nobody inside — only a big wooden wardrobe.

Eric was so curious. He opened the wardrobe. Suddenly, a genie appeared. Eric and Alan squeezed their eyes and screamed. They were so scared of the genie. They could not stop their teeth from chattering.

The genie said to them, 'Can you be my friends? I feel very lonely!' However, Eric and Alan said 'No' to him. They ran away and never ever came back to the forest again.
