

## An Unforgettable Summer Holiday

After a busy semester, the summer holiday was around the corner. In order to make this summer more meaningful, my parents decided to visit Switzerland. In fact, I had heard quite a lot of beautiful things about the country. Therefore, it was not a surprise. The trip was really amazing and memorable.

Switzerland is a small European country known for its beautiful snow-capped mountains. One of the most beautiful places I visited was a mountain in the Swiss Alps—the Matterhorn which is about 4478 metres high. It is the symbol of the Swiss and also the brand image of a well-known chocolate. We took a mountain walk to enjoy the fresh air and the cool breeze that we had never experienced before.

We also visited the largest glacier in the Alps—the Aletsch Glacier. We arrived at this sightseeing spot by cable car. The scenery in the glacier was unbelievable. The magnificent glacier seemed like a big dragon flying from the Alps. In fact, it was declared a UNESCO World Heritage Site since 2001. We stayed there the whole afternoon to enjoy the scene and spectacular view.

We spent eleven days on this summer holiday. When I came back to Hong Kong, I can still feel the cold air, lakes, the green surroundings and the snow mountains in the atmosphere. The trip was wonderful and I really had an unforgettable experience.
