Yesterday, I went to the zoo with my dad. It was sunny and windy on that day.

First, we went to see zebras. And then, we went to see the lions. Finally, we went to see a snake.

It was a long day. We were exhausted but very happy because we had fun.

An Amazing Day

Last summer, my family and I went to the park to have a picnic because we were bored of staying at home.

First we found a good place and sat down. We took out the food from our bags. I ate some food. Mum sat down and looked at the sky. Dad lay down and read a book. My sister wanted to catch a lovely bird but the bird flew away. We were all very happy. Before we left, we packed our bags. We had an amazing day.

A Visit to the Home for the Aged

Last Friday, my friends and I visited the Home for the Aged. We did a lot of fun things with the elderly. First, we had a delicious lunch with the old people. We had meat, fish and vegetables. After lunch, the old people talked a lot with us. They talked about their daily life in the centre. It was meaningful. Lastly, we had a farewell party with them.

We had a happy time with the aged. Although we were very exhausted, we were glad we went as it was a meaningful experience.
