

## A Genie from the Wardrobe

5D Lam Wing Moon, Sophia

One day, while Eric and Alan were walking through the forest, they lost their way. On the way, they saw a castle. They peeped through a window into the castle, but there was nobody in the castle. They crept into the castle quietly.

It was late evening, so they were hungry. They looked for food in the castle. While they were looking for food, they could hear the strong wind grumble and rumble. The castle began to rock. They squeezed their eyes shut.

Then, somebody shouted, 'Please help me! Let me go!' Eric and Alan's teeth began to chatter. They walked in the direction of the sounds. They were coming from a wardrobe in a room. Eric decided to open the wardrobe. While he was opening the wardrobe, a genie flew out. Eric screamed, 'Look! A genie!'

The genie said, 'Hi, how are you, my master?'

Eric answered, 'We don't like our family, so we ran away!'

Luckily, the genie said, 'Oh, poor you! Don't worry! I will give you this castle and some magical powers. Thank you for saving me!'

So, Eric and Alan lived together in the castle happily ever after.
