

An Unforgettable Experience

6B Wong Yu Lok, Ryan

Dear Peter,

How are you? I miss you a lot. Do you know that I am on holiday in Australia? Well, let me tell you all about it.

Last week, I went to Australia with my family and friends. The air in Australia is very fresh, and the views are fantastic.

On the first day, we visited the biggest zoo in Australia. I saw many cute and amazing animals there. I tried to feed them but I was so scared when one of the animals tried to bite my hand. Then, I ran away as fast as wind. My family and my friends burst out laughing.

The next day, we went on a boat trip to see the biggest animal in the world—the blue whales! I didn't know much about blue whales until that day. They were extremely huge. I felt like a tiny ant in front of them! We were so thrilled to see them.

Well, that's all I can tell you for now. How about you? I hope you are happy in England. Please write soon.

Love,
John

Save Us, the Endangered

6C Chan Yuen Tung, Vanessa

Hi, I am the Great White Shark. I have huge fins and pointy teeth. I don't have scales like other fish. I live in the ocean where there are a lot of sea creatures. I eat either sea lions or other sea creatures in the ocean. There are approximately 3500 of us left in the world.

We, the Great White Sharks, are the top predators in the ocean. The only predator we fear, is humans. We fear them for many reasons:

They illegally fish for our fins, teeth, jaws and meat. That is why our species are decreasing in number. They pollute our oceans. They throw rubbish into the ocean. Then we accidentally eat it and it kills us.

I want you, humans, to stop hunting us and stop throwing rubbish into the ocean. Please help us and make the Earth a better place for us to live in.
