A Visit to the Home for the Aged

Last Friday, my classmates and I went to the elderly home in Tseung Kwan O. We were excited.

When we arrived, we started to take care of the elderly people. I took care of an old woman while Tony took care of an old man. While I was taking care of the old woman, she said, 'I feel cold. I need to wear my jacket properly.' I replied, 'Oh! Let me help you to put on the jacket properly.'

After that, it was time to give gifts. My classmates and I started to give gifts to the elderly in the common room. The elderly were very happy. We were happy too because we helped them. While we were still giving gifts, we found that some scarves that we wanted to give them were missing. I told Rose about them. I said, 'Oh no! The scarves are missing!' Rose said, 'Let's tell others about it.'

After Rose told Ken and Chris, they started to find the solution. Ken asked, 'What can we do?' I said, 'Let's find the scarves in the shuttle bus.'

Therefore, we went to the shuttle bus and checked to see whether the scarves were there. We found that the scarves were there. We were happy. Then, we gave the scarves to the elderly.
