

Name: Tang Ka Man (19)

Class: 6A

### My Dream Job

When I grow up, I want to be an animal caretaker. It is because I love animals like dogs and cats since my childhood. Seeing them ownerless and wandering on the streets makes my heart melt.

As an animal caretaker, I need to take care of pets by feeding, washing them, playing with them as well as taking them for a walk etc. I also need to set up websites and encourage people to visit and adopt homeless cats and dogs too.

To be an animal caretaker, I need to be patient since pets may be clumsy and often make a mess. I also need to have good customer service skills so that I can communicate better with my clients.
