

A Visit to the Home for the Aged

4A Chan Hei Yi, Hayley

Last Friday, my brother, my friends and I went to the home for the aged to learn how to help the old.

First, we headed to a room where two elderly people welcomed us to their rooms. They were the nicest out of all the elderly! The old man said, 'Come sit with us.' So, we did! The old lady said, 'Hello there, young child! Will you help me put my coat on?' I nodded and said, 'Of course! By the way, my name is Chloe!' When I was getting her coat, I saw my brother, Timothy, feeding the old man! It was very heart-warming! So, I got her coat and helped her put it on too!

While my brother was talking to the elderly, my friend pulled me into a room and told me something horrifying. She told me that the gifts for the elderly were gone! I said, 'Wait a second! Where are the gifts? Oh no! We left them at school!' We were panicking!

After that, we huddled up and I said, 'Hayley and William, go to the school to check! Timothy and I will stay here!' They nodded and ran to the school.

Half an hour later, they came back with the gifts. I grabbed them and then gave them to the elderly. They thanked us for the gifts and I smiled.

That day was very nice as we took care of the elderly. I wish I could do that again!

Protect our Earth

4A Shek Wing Tung, Venus

Yesterday, John, Jimmy and I went to the country park to have fun together.

We first played hide-and-seek. Suddenly, we saw a woodcutter chopping a tree. John said, 'Please stop chopping the tree. We must protect the environment and our Earth.'

However, the woodcutter continued to cut down the tree. I felt very angry and said, 'If you cut down trees, wild animals and birds will have no homes. We can't play hide-and-seek either.' Then we cried, cried, and cried.

Finally, the woodcutter stopped cutting down trees. He agreed with us and said, 'Let's love the Earth together.' After that, we smiled happily together.

Save the Forest

4A Ng Wing Tung, Azal

The animals lived in the forest happily. One day, they saw a group of villagers chopping trees. The villagers needed wood to build a big house. The owner of the house and the workers were happy, but the animals were all sad. The animals' home was lost. They could not live without the trees as the trees gave them a home and food. The animals started crying.

As usual, Superboy went to the forest to play with the animals but could not find the forest. He saw tree trunks instead of forests. He saw the animals crying so he comforted them. Suddenly, he came up with an idea.

Superboy used his power to blow all the wood in front of him. He put back the wood on the trunks. Then, something magical happened! The forest was back in its normal condition. He left a note on the house owner's pillow. It said, 'You shouldn't chop down trees from now on. You made the animals homeless.'

Learning a 'Green' Lesson

Last Monday, Tony took a bath at home. He played with water while he was taking a bath. He splashed water everywhere. He played happily.

After the bath, Tony went to the living room to watch his favourite TV programme. Suddenly, Mom complained, 'Tony, you forgot to turn off the tap in the bathroom!' Tony ignored his mother and kept on watching TV.

The following day, Tony was waiting for the lift in the lobby when he saw a notice which said 'No water for two days.'

Tony cried, 'Oh no! I shouldn't waste so much water!' He felt very ashamed.

At home, Tony thought of what he should do so as not to waste water. He learned to reduce the use of water from that day on. He learned to make our Earth 'Green'.

A Visit to the Home for the Aged

Last Friday, my friends and I went to the Home for the Aged to visit the seniors. Ben fed an elderly man some rice and meat. I asked an old woman, 'How can I help you?' The old woman answered, 'Please help me put on clothes.' So I helped the old woman put on clothes.

After a while, I wanted to give out scarves to the elders but the bag of scarves was empty, so I told my friend, 'I want to give out the gifts but the bag of scarves is empty.' Mary said, 'I think the scarves are gone.'

Then, we discussed what we could do. I said, 'I think we can buy other scarves.'

In the afternoon, we went to buy other scarves and gave them to the elders. They said, 'You're so sweet!' We went back to school happily.
