

## My Dream Job

6A Ip Ka Yin, Ella

Everyone has a dream. Some people's dreams are special. The dream of becoming rich, famous, and popular is common. However, others may dream of making others' lives better.

My dream job is to become an interior designer. I have met many interior designers. They are so charming. They help people design houses and buildings. They work in their studios, and they need to calculate and draw houses or buildings' structures. I think this job is very special because if my design is chosen for a house, the buyer might feel happy. Therefore, I will have a sense of success. The sense of success is the best for me. To become an interior designer, I need to be creative and artistic.

My parents and friends always encourage me to learn more about Art and Mathematics. I hope my dream will come true when I grow up.

## Save Us, the Endangered

6A Fung Tze Yan, Yanes

Hello! I am a Bluefin Tuna. I am metallic blue on top and shimmering silver-white on the bottom. I live mostly in temperate ocean waters, such as the Atlantic and Pacific Oceans. I mainly eat squid and crustaceans. In adults, I feed mainly on baitfish. For example, herring, bluefish, and mackerel. I am the largest tuna and can live up to 40 years.

There are not many of us left in the world. Humans fish for us to make either sashimi or fish fillets. That makes us face a severe survival problem. Another reason is the reclamation for urban growth. Because of this, we have neither a place to live nor food to eat. We are becoming endangered.

I hope humans can stop catching us to eat. I hope people can donate money or join fundraising events to save us. Please, keep us alive! Thank you!

## Thank you, Teachers and Classmates

6A Ng Yu Ching, Vevina

When I was six, I left my kindergarten and started studying at St. Andrew's Catholic Primary School. I was scared on the first day when I went to my primary school. I was super anxious because I could not adapt to the new environment, and I did not want to leave my old friends. Gradually, I have made friends with my new classmates and learnt many new skills there. I had a priceless time there. Now I'm grateful to my teachers and all my classmates.

First, I would like to thank my class teacher, Mr. Law, for always being patient and caring. He always encourages me to study hard and tells me never to give up what I want to do. Second, I would like to thank my English teacher, Miss Tang, for her amazing English lessons. Thank you for telling me how to solve problems and being strong when I am facing difficulties. All the teachers in our school have passed their knowledge onto us and they are very nice to us.

In the end, I want to thank all my classmates. They have brought me an amusing and wonderful primary school life.

Now it is time to leave primary school and become a secondary student. I hope all the teachers do not get too tired teaching and wish all classmates can be happy every day and get into a good secondary school.

## A Learning Experience

6B Leung Ka Ka, Elly

Yesterday, I participated in the Hong Kong Primary English Read Aloud Challenge Prospectus. It was held in Precious Blood Secondary School. The registration time was 8:45 so I had to wake up early. After the registration, I went to the school hall and saw many of my schoolmates. The school quickly introduced itself and the competition started. Everyone was separated into different groups. A lot of people did very well. After a few students, it was my turn. I didn't do the best among everyone in my group but I tried my best. My parents were very proud of me.

A while after the competition, we got to play some English games. I met some new friends along the way. The students and teachers who oversaw the games were all very kind! An hour later, it was time for the prize-giving ceremony. I was thrilled that some of my schoolmates got a prize. Although I didn't get a prize, I wasn't disappointed because it was my first time participating in a reading competition and I didn't expect much.

Although I didn't win, it was a great learning experience for me. I hope I can get more experience like this later in my life.

## My first speech

6B Wong Yat In, Ian

After the exam, there were only a few days left for me to practise my first speech. My anxiety started to kick in and it triggered my inner alarm. My dad practised with me and explained some of the places I needed to improve. We even recorded a video of myself, as we took this competition seriously.

On the day of the competition, we travelled to an old school. There were lots of contestants and I was curious about how others would present their speech. I was calm all the way while I was standing outside and waiting for my turn at first. However, my heart began to race when the contestants beside me went out one by one. Soon, it was my turn. I walked to the stage and rethought my practice process at home. During my speech, my emotions and feelings blended in perfectly with my actions and I gained everyone's attention, even the judges nodded their heads throughout my speech. Once I finished it, one of the judge's smiles made my day.

I went to my seat airily after that, my stomach was relaxed. I took a glimpse at my mum and could see that she was impressed by my performance. Then, it was the moment I had been waiting for. I could see that there were loads of prizes waiting to be given out, I felt hopeful. But after announcing the third and the second prize winners, the candle in my heart was no longer lit. Suddenly, my number was called out. The air surrounding felt jubilant. It was hard for me to accept the reality, but I jumped out of my seat in disbelief.

When I think of it, I still believe this outstanding award belongs to my dad. Since this prize not only alludes my prowess in speech but my growth under the leadership of my dad. It was an unforgettable experience.

## My Weekend

6B Siu Lap Ching, Hazal

Yesterday was my parents' wedding anniversary, they wanted to stay at a hotel by themselves. So, they decided to take me to my cousin's home to stay for the night.

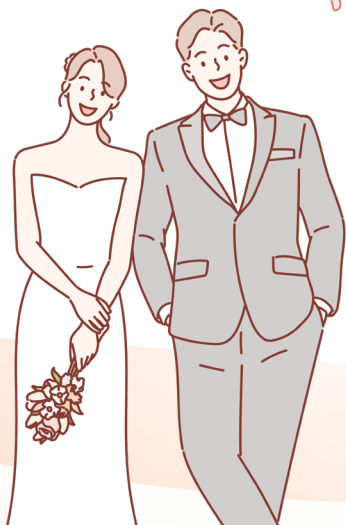

When I arrived, my cousin and her family quickly took me to a restaurant named Ocio. The food was delicious. I tried some special dishes that I hadn't tried before. After dinner, we went home. We played some video games and we did homework together. We ordered takeout at night.

Before we went to sleep, we watched the movie 'Elemental'. I was amazed by the high quality of the movie. I was also touched by the ending.

After the movie, I quickly hopped into the guest bedroom and fell asleep. What a day!

WEDDING DAY

## An Unforgettable Experience

6C Lee Wing Hang, Henry

Dear Peter,

How are you? I heard you have a fever. It must be terrible! It would help if you could have a lot of rest so that you will feel better. I want to tell you about the incident I had last week.

Last week, I was practising football on the football field with my friends. We were showing each other some new tricks we learned, but one of my friends suggested that we have a football match with some children on the football field.

When it started, one of my opponents kept the ball under control and went to kick the ball into our goal. However, one of us took the ball away. Then, he ran to their goal and kicked the ball into the opponent's goal. We received one point, but we needed three more points to win. While I was running, I tripped over a rock. My friends sent me to the nurse's office when they saw my leg bleeding. A nurse there rinsed my wound and put a bandage on it. Then, she told me to go home. I was very sad as I could no longer have the fun match on the day.

It was an unforgettable day. I was devastated. I learnt to be more careful when practising my football skills. I hope you feel better soon! Please write soon.

Love,  
John

## Self-introduction

6C Martinez Caznei Miravite

My name is Caznie. I am eleven years old. I live in Tiu Keng Leng. There are four members in my family. I play games like Poker Chess and Monopoly with my family during the weekends.

I'm studying at St. Andrew's Catholic Primary School. I think teachers there try hard to make students learn more. My favourite subject is Visual Arts. I am good at English. At school, I am a prefect. I ensure the safety and needs of younger students.

My hobby is doodling. I like doing it in my spare time. I am good at painting. I draw scenery the best. I am weak in rollerblading, but I can improve my rollerblading skills by bending my knees more to keep my balance.

I can speak in Spanish and English, so I can communicate with foreigners. I hope I can get into an international secondary school. Thank you for giving me this chance to speak in this interview.

## Save Us, the Endangered

6C Madarang Racquel Julia Tan

Hi. I am Green Turtle. I am green in colour and big. I can grow up to 31-47 inches long. I live in either tropical forests or sub-tropical waters. I mainly eat seagrass.

I can weigh up to 150-400 pounds. I am the largest turtle in the world. I am called Green Turtle because of my green cartilage and fat.

There are only 85000-90000 green turtles left in the world. My species is endangered since humans harvest so many of our eggs that it won't be enough to give birth to baby green turtles. Besides, humans catch the adults with nets. Consequently, there will be no more mother green turtles to give birth to new baby turtles. Furthermore, humans carelessly throw the trash into the sea. Therefore, we choke on the rubbish and die, making our population even lower. As a result, we have become an endangered species and more at risk of becoming extinct.

Please stop endangering us. You can throw the trash in recycling bins and stop harvesting our eggs. Please be considerate of the environment and animals to make the world a better place for animals and nature. Thank you!

## My Dream Job

6D Kong Wing Lam, Ella

I have a dream job. I want to be an astronaut when I grow up.

The reason is that I like exploring. I could explore different kinds of galaxies, strange planets, our solar system and even the Moon! Every night, I would look for the glowing shiny moon in the big dark sky. The moment I see the moon, I would take out the telescope I borrowed from my friend to see the moon closer. But I would prefer seeing it in person and even landing on it. I also feel excited when I see stars. I also would always try looking for planets in our solar system with the naked eye but I can never tell the difference between a star and a planet.

That's another reason why I want to be an astronaut. I want to land on Mars. I also want to land on Saturn, but it is nearly impossible. Or even land on Venus even though it's hot there. I like adventures. If I want to be an astronaut, I need to be brave and ready to face challenges. I need to study hard and watch space documentaries often. It is important to learn new facts about space. Although it may seem easy and fun. There is also a very high risk of death because we can run out of oxygen easily.

I hope my dream comes true.

## Self Introduction

6D Ng Long Hei, Haley

My name is Haley Ng. I am eleven years old. I live in Tseung Kwan O. There are six family members in my family. We all get along well with each other.

I am studying at St Andrew's Catholic Primary School. I think my school is huge and the teachers are very kind and helpful. My favourite subjects are English and Art because I can understand English very well and I like drawing and colouring.

I am a monitor. I have to help the teachers hand out homework. I am good at English and weak in Chinese. I can improve it by reading more books. My hobbies are drawing and colouring. I like to draw often.

I would like to study at Creative Secondary School because I am good at English and drawing.

I am a helpful student. I try my best to help others in need. If I have a chance to study at this school, I will study hard. It would be an honour to be a student at this school.

## Self Introduction

6D Rodrigues Chloe Saffron

My name is Chloe Saffron, Rodrigues. I am eleven years old. I live in Clear Water Bay. There are five family members in my family. I have two sisters but no brothers.

I study at St Andrew's Catholic Primary School. I think it is a wonderful school because the teachers and fellow schoolmates are kind and helpful. My favourite subject is either Art or Maths because in art class I can let my imagination run wild and come up with anything I can think of. I also like Maths class because I find it fun and sometimes tricky to solve the Maths problems. I am a school prefect and have been for two years now. I love helping other fellow schoolmates.

My hobbies are doing art and gymnastics. I usually practise these things at home. I am good at sports such as track, field and gymnastics. I am weak in social activities, but I can improve myself if I speak more with my teachers and other people.

I want to study at ABC Secondary School because I think this school is great. I am a well-behaved student. I believe I will strive for the best and work hard. If I have a chance to study at this school, I will keep studying hard and contributing to this school. It would be an honour to be its student. Finally, I would like to thank you for giving me a chance to have an interview.

## My dream Job

6E Xu Jing Hao, Eddy

My dream job is to be a flight attendant. I want to be a flight attendant when I grow up because I like to serve people on the flight.

As a flight attendant, I need to show up when passengers need me. Sometimes, I have to send a small blanket and serve food and drinks to passengers. Before each take-off, I have to close the door of the plane, check the emergency equipment, and remind passengers to fasten their seat belts. I also need to help wheelchair passengers, small children, or VIPs on board.

To make my dream come true, I need to be good at English and Mandarin. Therefore, I will learn the languages well in school. We should provide good service to passengers, keep smiling and be patient at all times. I also need to improve my time management and communication skills.

I hope my dream will come true when I grow up.

## Save Us, the Endangered

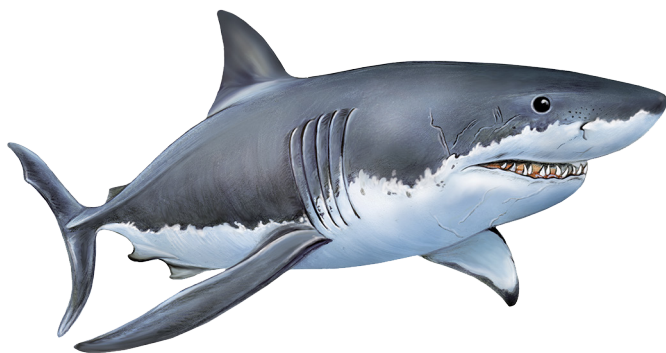

6E Lau Jeremy Anthony

Hi! I am the Great White Shark. I can grow up to 20 feet as large as a school bus. Also, I weigh up to 5,000 pounds. I live in cool, coastal waters around the world. My favourite food is sea mammals, especially sea lions and seals.

I can smell a single drop of blood from up to a third of a mile away.

There are less than 3,500 of us left in the world. Humans hunt us for our meat and oil. Because of this, we decrease in number. Another reason is illegal poaching, so our number is decreasing rapidly.

Humans, please don't kill us for food because we have become endangered.

## Thank you, Teachers, and Classmates

6E Wong Kei Naam, Lucan

Six years ago, I left kindergarten and began studying at St. Andrew's Catholic Primary School. At first, I was very nervous. I didn't want to go to a new school because I didn't want to leave my old friends. Then, I started making new friends and learning new things. I had many wonderful memories in this school. And I would like to thank a lot of people.

First, I would like to thank my English teacher for always being kind to us. Second, I would like to thank my class teacher for telling me right from wrong. Third, I would like to thank my classmates for always being caring, nice and considerate. I am grateful for the things I have learnt in this school. All the teachers have taught me to be considerate.

Now it is time to leave primary school. I wish that all the teachers and classmates are healthy and happy every day. I will miss you all.
